**Farmers with 850 tractors demonstrated against increased fuel prices.**

You might have heard about the farmers protest in the Netherlands. Farmers have been protesting against government plans to essentially SEIZE 3000 farms in order to meet 2030 climate goals.

Earlier this year I traveled to report on the farmers protest in the Netherlands. Some 10 000 people turned out. One of the speakers supporting the farmers was none other than Geert Wilders. He recently won the election in the country.

Read the TRUTH about the [Dutch farmers protest in my previous article here:](#)

### The TRUTH about the Dutch farmers protest.

PETER IMANUELSEN · MARCH 18, 2023

Right now something is going on in Europe that should send chills down your spine. Something that we didn't think could happen. Yet here we are. You see, in the Netherlands, the government is planning on essentially SEIZING thousands of farms, farms that have been in the same family for generations, all in order to meet new climate goals for 2030.

[Read full story →](#)

## But there's more!

Now farmers in Germany are protesting, and it's barely being reported on the news. I couldn't find any international mainstream media reporting on this story. By being subscribed to my Substack you are now one of the few people in the English speaking world that is informed on this story! Farmers will no longer get tax breaks for diesel and they won't get an exemption from car tax for farming vehicles under the new plans.

They say that these new measures will help protect the climate...

Great idea. Let's make farming much more expensive, thus making food more expensive in the name of climate change!

Farmers are not happy about this, so they have been protesting. Last month some 40 000 farmers blocked the streets of Berlin with an estimated 8 600 tractors – A 10 kilometre long convoy.

Watch video of the protest in Berlin here:

### Demonstration of Farmers in Berlin || ViralHog

The protests have been ongoing.

On Friday, 850 tractors took to the streets to protest in the German city of Siegen. Watch videos of some of the tractors here:

### Bauern-Protest: 200 Traktoren fahren zur Demo nach Siegen

Did you know that they are now feeding toxic chemicals to cows in order to get them to fart less? Yes, you read that correctly.

There is now a new "climate milk" that is made from cows that are being fed methane suppressants. Can you guess who has recently invested in companies that make methane suppressants? None other than Bill Gates.

If you haven't already, make sure to check out my in-depth investigation into this world of "climate milk" and methane blockers that are **being fed to cows**.

### They are POISONING our milk now

PETER IMANUELSEN · OCTOBER 24, 2023

I have something very worrying to tell you. They are planning on poisoning our milk supply in the name of stopping climate change. Of course you will not be hearing anything about this on the mainstream media, so that is why I have to write this article and warn you of what is happening.

[Read full story →](#)

Without farmers, we don't have any food. One of the most important things for a country is to have a secure food supply. Now it seems like farmers are being attacked because they are deemed to be bad for the environment. It really doesn't make any sense.

## No farmers = No food.

They need to feed Vegans the methane suppressors. On a serious note, cows and other ruminants are foregut fermenters. Methane is part of their natural digestive process. Expect mass die offs of cattle as they can no longer ferment and digest plant material they need to live.

All religions have issues - mostly because they are man made, essentially. They are all DESIGNED to cause them to fight each other. Much of the TRUTH of the Bible, for example, has clearly been withheld from us, given that I estimate we only have around 8.5% of what was written and it was the powers-that-were that decided which parts we would get to see!

I suspect this will be the last belief system to be dealt with, and for obvious reasons

Ahhh, but the curran calls for the eternal killing of non-believers who do not convert.

I'm not aware of another religion like "islimmey alluha NAKBA" that requires same.

Do you know of one? To withhold sections of the Bible would be a sin.

Hi Muslim.

We see you.

Your fake name does not hide that you are a Muslim.

We all know that you are lying, just as your pedophile prophet lied.

"One may eat the flesh of a human body. It is not allowed to kill a Muslim nor a free non-Muslim under Muslim rule (because he is useful for the society), nor a prisoner because he belongs to other Muslims. But you may kill an enemy fighter or an adulterer and eat his body." -Al Shafii, the founder of Islamic jurisprudence, p716 in volume 1, Al-Kortoby)

"And He has the right to kill an apostate and eat them, and kill a warrior, even if a child or a woman, and eat them, because they are not infallible. Rather, it was forbidden to kill the warlike boy and the warlike woman, not out of necessity for their respect, but rather the right of the conquerors, and he has the right to kill the married adulterer and the halliqaunt. And (also) he who..."

Do you know the history of islimmyism? The very first area they OCCUPIED WAS JERUSALEM....where Christians and Jews had lived for hundreds of centuries.

Mohammyman wrote, that he would send out spies to listen for the "morning call" to prayer of populated areas, and if they did not

Is this what you call a "nice person"?? You do not know history well. Columbus sailed WEST to avoid the evil islimmieys who had destroyed CONSTANTINOPLE!! The Pilgrim ships sent back to England in the 1620's, were attacked by the EVIL islimmeis. SEE: Lundy Island.

Vatican City in Italy was attacked by evil islimmies.

Sadly, you do not know history of islimmyism..... they are pure EVIL.

Truckers made zero difference in Canada. Truedope took their bank accounts anyway.

Farmers made zero difference in Netherlands. Netherlands took their farms anyway.

Farmers will make zero difference in Germany. Hell, Germany seems to be enjoying tearing up historic villages to get to lignite coal while shutting off their nukes. Germans seem to be just fine with a 600% increase in electricity cost, bankrupting grandmas and shutting down major industries.

So it turns out the Big EU hug isn't the kumbaya love fest they had hoped for, eh? Absolute power corrupts absolutely, and the EuroPhag utopian dreams are going up in smoke as they realize that fallen men will be corrupt, evil, jackbooted, and despotic even when proudly goose stepping under the blue EU flag. And the more farmers and others resist, the more the EU will tighten their death grip.

To make any difference, EuroPeons are going to have to wage a war against their own despotic rulers and their own lunatic Greta countrymen who have made Environmentalism their religious cult. And when I say "war", I mean blood in the streets, blood in the halls, blood in the capital, blood door to door. That is, if the Muslim imports don't beat them to it.

Same thing here and I'm not sure what we're waiting for. The only ones that can save us are us. Too many people think it doesn't apply to us... or someone will save us... or we will vote them out this time...or... We have 2A and it was for exactly what we have: a illegitimate tyrannical gov. And people seem to not realize our "gov" is made up of corrupt people - dems who openly cheat with elections, poison us and try to kill us and reps who allow it.

I cannot believe that the Dutch government would seize their own farmers' property. The Netherlands is a very tolerant and productive country. And it has great beer, beautiful women, amazing canals, and the Keukenhof Gardens.
