A former Virginia public official who once headed an election office was indicted this week on [corruption charges](#), authorities said.

The office of state Attorney General Jason Miyares said a grand jury indicted former [Prince William County](#) General Registrar Michele White on two felonies and one misdemeanor charge.

The charges are corrupt conduct as an election official and willful neglect of duty as an election official between Aug. 1 and Dec. 31, 2020 and a false statement by an election official between Nov. 3 and Nov. 10, 2020. Miyares' office declined to comment to Fox News.

The indictment did not provide any details of the specific crimes White is accused of.

White held the post of county registrar from February 2015 until her resignation in April 2021, the Prince William County Times reported. She stepped down after an emergency March 2021 meeting of the Electoral Board to discuss her tenure, the report said.

In 2020, the county set records for [early and absentee ballots](#) cast and coincided with changes in state laws that expanded access to early voting, according to the newspaper.

I can't find her political affiliation in any article. It isn't a political position, but I would still like to know. Either party, if she committed a criminal act she should be convicted and sentenced to a fine, prison, or both.

It's not mentioned, so we can probably assume she's a Democrat. She previously worked for a Democrat.

If the Biden administration is the essence of transparency and accountability, as I'm sure Joe Biden will continue to claim it is, why is it everyday and in every crisis they create, we get no information and are often fed obvious lies and pointed leaks to create additional diversions?

Those that committed election fraud will be quietly arrested, no facts made public. To do otherwise would be an admission that Trump was right. Trust that she isn't the only one.

After looking at census data from the last 100 years and other facts its easy to question the 2020 results.  
How do registered voter rolls increase by 30 Million from 2016 to 2020?  
When every 4 years according to the census bureau its less than 4 million on average.  
A 7 time increase in voters for the...

As time passes more and more of these anomalies involving the 2020 election will come out but of course the damage has been done. I read somewhere that the numbers already show that more votes were cast than the number of registered voters on the rolls.

Do a search on what happened in Philadelphia years' back.....I do not remember the year, but it was before Pres Trump ran for office.

NUMEROUS Democrats busted.....Even an election judge (or whatever they are called).

It is long past time to clean up corruption in our elections. Anyone found tampering with ballots, destroying them, or "finding" them should immediately be arrested and tried. Our country is at a breaking point, and we need to make sure that all of our elections are honest and above board.
